Delcon JSB

About the Company

- Welcome to Delcon JSB, a pioneering force in the distribution and manufacturing of automotive care products within India. With an unwavering commitment to excellence, we offer a comprehensive range of premium solutions designed to elevate vehicle maintenance standards.

MISSION

Driven by a steadfast dedication to performance, our mission is to uphold vehicle integrity through top-tier automotive maintenance services. We equip dealerships and franchises with superior products and equipment, empowering them to execute Delcon's automotive maintenance services with precision and efficacy.

VISION

At Delcon, our ethos is encapsulated in our motto, "Passion To Perform." We are a team of industry experts, leveraging extensive experience in car detailing to conceptualize strategies that align with our business objectives. By fostering strong relationships with our partners and clients, we cultivate an environment of collaboration and trust.

Our Mission and Vision

Car Care | Additive | Aerosole | Equipments

Why us

At Delcon, our R&D process is designed to create innovative, high-quality automotive components. Here's how we do it:

Market Research

We start by understanding market trends, customer needs, and competitors to identify opportunities for innovation.

Idea Generation

Through brainstorming sessions, we generate and evaluate ideas, selecting the most promising ones for development.

Testing and Validation

We conduct rigorous testing and field trials to ensure our products are reliable, durable, and perform well in real-world conditions.

Manufacturing Development

We develop efficient manufacturing processes, validate them with pilot production, and ensure consistent quality through strict control measures.

Regulatory Compliance

We meet all relevant regulatory standards and obtain necessary certifications to ensure our products are market-ready.

Continuous Improvement

We gather customer feedback and conduct post-launch reviews to continuously improve our products.

At Delcon, our meticulous R&D process ensures we deliver the best automotive components to meet market demands.

versatility

Paint Protection

Car care products are items designed to clean, protect, and maintain the appearance and functionality of a vehicle. These products include car wash soaps, waxes, polishes, tire cleaners, interior cleaners, and protectants, as well as specialized tools and accessories for detailing and maintenance.

Long Lasting

Our car care products are long-lasting and durable on all types of surfaces

versatility

The versatility of car polish makes it an essential tool in automotive detailing, catering to a wide range of needs from surface preparation to correction, enhancement, and protection.

Paint Protection

Overall, car polish paint protection is an investment in maintaining the car's aesthetic appeal and preserving its exterior condition against various environmental and physical challenges.

ADDITIVES

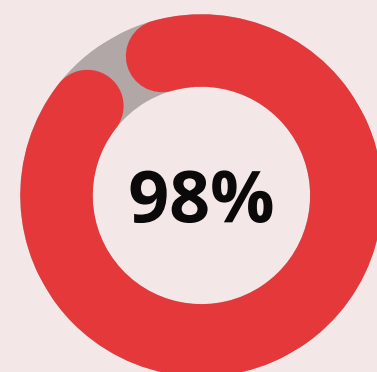

Efficiency

Performance

Compatibility

Scan for more info

Car additives are substances added to various automotive fluids, such as fuel, oil, or coolant, to enhance performance, protect engine components, improve efficiency, or reduce emissions. They can include detergents, stabilizers, corrosion inhibitors, and friction modifiers, among others.

Improved Efficiency

Oil additive helps improve fuel economy.

Engine Performance Improvement

The chemical compounds remove contaminants and lubricate moving parts in an engine improving the engine performance.

Compatibility

Our Formula is compatible with petrol and diesel engines.

Contract Manufacturing

To provide high-quality contract manufacturing services to clients in the automobile care industry, leveraging our expertise, state-of-the-art facilities, and stringent quality control processes.

Research and Analysis

Assess industry trends and regulatory requirements.

Definition and Planning

Develop a detailed service plan, including timelines, resources, and budget.

Client Acquisition and Onboarding

Establish a streamlined onboarding process for new clients.

Development and Customization

Collaborate with clients to understand their specific product requirements.

Quality Control and Assurance

Implement robust quality control measures at every stage of production.

Communication and Support

Stay updated with industry advancements and incorporate them into the service offering.

By following these steps, Delcon can effectively offer contract manufacturing services, ensuring high client satisfaction and fostering long-term business relationships.

Delcon JSB

CUSTOM FORMULATION

To provide specialized custom formulation services for clients in the automobile care industry, utilizing our expertise in chemistry, advanced technology, and industry knowledge to develop unique and effective products.

- **Consultation:**

Understanding client needs and requirements.

- **Research and Development:**

Creating innovative formulations tailored to client specifications.

- **Prototyping and Testing:**

Developing prototypes and conducting extensive testing.

- **Regulatory Compliance:**

Ensuring formulations meet all industry standards and regulations.

- **Production Support:**

Assisting with scaling up the formulation for mass production.

Delivering innovative and high-performance products that meet the unique needs of their clients.
